

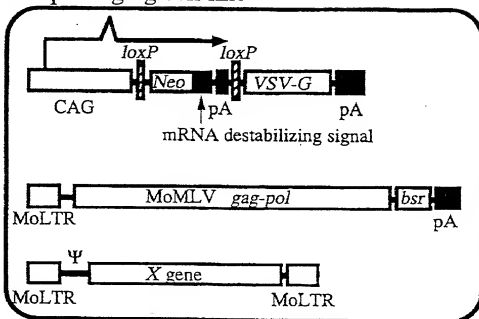

Fig.1

# Pre-packaging cell line

Cre recombinase

# Packaging cell line

Fig. 2

Fig. 3

# pBabe related plasmid

## pBabe loxpuro

## pBabe loxpuroΔpA pBabeloxpuro without pA

SD-: mutation at splice donor site

ATG-: mutation at *gag* first Met

SV40: SV40 early promoter

*puro<sup>r</sup>*: puromycin resistant gene

pA: SV40 polyA signal
